

M e m o r a n d u m

Date: October 14, 2010

To: Quincy Area
Attention: Lieutenant B. A. Carpenter

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of Inspector General

File No.: 010.11731.A07146.010

Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Quincy Area was conducted during the month of April 2010. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that departmental inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was conducted by the Property Inspector (PI) on September 23 – 24, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 455 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 56 items when rounded up to the next whole number (d).

Safety, Service, and Security

| | Population Size | Percentage of Total | Calculated Sample Size | Predetermined List Sample Size |
|---------------------------|-----------------|------------------------|---------------------------|-----------------------------------|
| | (a) | (b) | (c) | (d) |
| ICU Decals | 171 | 37.58% | 20.29 | 21 |
| Telecommunications | 190 | 41.76% | 22.55 | 23 |
| Fleet | 20 | 4.40% | 2.37 | 3 |
| Weapons | 74 | 16.26% | 8.78 | 9 |
| Total | 455 | | | 56 |

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 53 of the 56 items were located. Three items were transferred to other commands. Five of the 56 located items require a correction be made to the property record. The property inspection results of the equipment recorded on the predetermined property inventory list compared to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 53 of the 70 items reconciled. One item located was listed as being with another command; subsequently, the item was located and transferred back to the OPI for proper equipment accountability. Sixteen items located require a correction be made to the property record. The property inspection results of equipment located at the command compared to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate the discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspector General through your Division by January 11, 2011.

In accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the internet website of the CHP, and on the Office of the Governor webpage, located on the State Government website.
